Gather here for a second chance to finish your degree.

NSU's new College of Extended Learning at Northeastern State University was created for adult students like you who want to return to college, earn a degree and advance in your career.

Because we recognize how difficult it is to balance life's priorities, our degree programs focus on both quality and convenience, offering a mixture of accelerated eight-week courses and expanded support services for working adults.

Online or on-campus.

Choose from a flexible schedule of online classes, blended classes and on-campus classes at one of our three locations (Broken Arrow, Muskogee and Tahlequah) or a partner institution.

The College of Extended Learning empowers you to:

- Enhance your job skills
- Increase your employment marketability
- Earn a degree from an accredited university
- Fit part-time course work into the full-time real world
- Choose an academic plan that meets your needs *and* accomplishes your goal
