## Continuing Education

NSU Continuing Education offers educational opportunities for students throughout their lives. We are learners for a lifetime, and education extends far beyond traditional classrooms. We recognize that process and serve as a link between your needs and those who can fulfill them. If you have a specific interest area or a professional goal, please contact NSU Continuing Education to see how we can help you to achieve your educational aspirations. ***If you have an idea or suggestion for a class or event please contact our office. We are here to serve your needs.***
