[Download RUSO Policy Manual](#)

The online version of the Policy Manual of the Regional University System of Oklahoma is maintained on this website to enhance public access to information about the Board and the universities it governs. This is a service that is continually under development. The user should be aware that, while we try to keep the Policy Manual timely and accurate, there will be a delay between Board approval of amendments and revisions to policies and their posting on this website. Policy changes go into effect when they are approved by the Board, unless otherwise stated. The official source of policy information is the Policy Manual maintained at the Regional University System of Oklahoma administrative offices located at 3555 NW 58th, Suite 320, Oklahoma City, Oklahoma, 405-942-8817. In the event of any conflict between this online version and the official version, the official version controls. Persons using the online version are encouraged to confirm the current status of specific policies.
