Reach Higher

The Time is Right to Finish What You Started

Designed for working adults, the adult degree complete program at Northeastern State University offers you the opportunity to return to college and earn your bachelor's degree. If you are one of the more than 69,000 Oklahomans who have completed a significant amount of college work, but for one reason or another never finished your degree, Reach Higher offers you a second chance to reach that goal.

We know it can be difficult to complete a college degree with a family to support and a full-time job. Reach Higher is a flexible program that allows you to complete a degree in organizational leadership within two years. Since many of the classes are online, you can keep a normal routine and maintain regular work hours.

Research shows that, on average, a college graduate will earn at least \$1.1 million more in his or her lifetime than a high school graduate. When you enroll in the Reach Higher program, you will enter a curriculum specifically designed to help you succeed in the workplace.

For more information about Reach Higher at Northeastern State University, please call or email Dr. Tim McElroy at (918) 683-0040 or mcelroyt@nsuok.edu.
