Sequoyah Institute

Named in honor of the renowned Cherokee educator and inspired by his example, the Sequoyah Institute was founded in 1985 as a non-profit organization of Northeastern State University. The institute strives to develop, foster and provide cultural enrichment beyond the classroom, and promote the experience and understanding of the fine arts through the [Galaxy of Stars Series](#), including Beyond the Stage and Learning LIVE, lectureships, and the [Stars in the Summer Series](#), featuring [Downtown Country](#) and [River City Players](#). Each season, the Sequoyah Institute continues to grow as a vital part of the educational experience offered at NSU.
