## Bachelor of Science in Speech-Language Pathology

Speech-language pathology is the study of disorders that affect a person's speech, language, cognition, voice, and swallowing, and the treatment of these disorders and diseases. Graduates of the Speech and Language Pathology program meet the requirements for Standard Certification in Speech/Language Pathology by the Oklahoma State Department of Education, as well as the Certificate of Clinical Competence from the American Speech/Language/Hearing Association. Our program provide you with a wide variety of academic and clinical practicum experiences necessary for a career in various work settings available to a Speech/Language Pathologist.
