Study Abroad

"No number of cross-cultural reading assignments or trips to the museum or lectures by wise and wonderful people has the same effect on young people as a study-abroad experience, even a brief one."

-Dr. Sanford J. Ungar, President, Goucher College, Baltimore, Maryland

The Office of International Programs is committed to providing you with quality international academic opportunities through Study Abroad programs to insure that you become successful members and active participants in the global community.

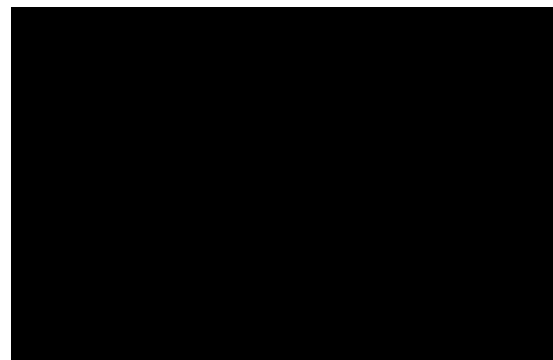

Study Abroad is seen as an integral component of an NSU education and all students are urged to participate. The Study Abroad program at Northeastern State University strives to adhere to the following standards and guidelines which are recommended by the following professional associations:

- Council on International Educational Exchange
- The Forum on Education Abroad
- NAFSA: Association of International Educators
- EF College Study Tours

Oklahoma Study Abroad

The Oklahoma State Regents for Higher Education has now created a centralized clearinghouse of study abroad information which profiles all such information offered throughout the state.

All college and university programs in the clearinghouse are linked to relevant information provided by the respective institutions sponsoring the study-abroad programs. This [user-friendly database](#) allows students to search programs by various categories, such as discipline, institution and country.

Students share the value of Study Abroad.
